

# LAURA TROTT

## CHRISTMAS TREE ANGEL

### INSTRUCTIONS

1. Print out this page on medium-thickness paper. Too thin and it will be floppy, too thick and it won't bend.
2. Cut around the outline, make sure to include the area marked "TAB".
3. Roll around the right hand-side of the angel so it overlaps the tab. Glue, tape or staple the tab behind the right-hand side so it is hidden from view.
4. Using a straight edge, put a fold in the dotted lines at the inner edge of the wings, and bend them forwards slightly.
5. Put the angel on top of your tree.
5. Tweet a photo to @cocteau triplets or email hello@magnificentoctopus.com
